

Refurbishment and extension of the ancient Town Hall of Fuentes de Andalucía. Seville. Spain (2010-2022)

Ignacio Laguillo Díaz. Architect

07A001716 - Built Heritage Category

The Intangible Cultural Heritage is also enhanced with a new public pathway from the street to the roofs, connecting with the surrounding protected heritage and the tradition of bell towers and viewpoints, elevated spaces for the control of land and crops which has historically been their primary livelihood.

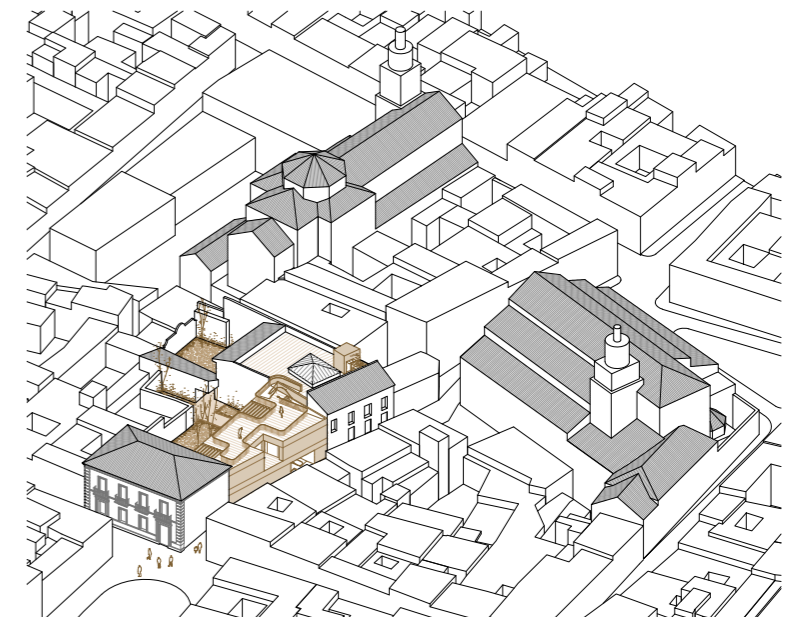

A new public pathway from the street to the roof links retrieves the tradition of bell-towers and viewpoints of Fuentes de Andalucía

Model - Longitudinal Section showing the relation between buildings and floors

Rooftop public space

The new extension connects the Neoclassical building and completes the Islamic layout
