The Miquel Blay boulevard, known as "El Firal", and the Bisbe Guillament boulevard (El Firalet) are together one of the most emblematic places in the city. Located in the center, these two tree-lined streets contain some of the most relevant buildings in the city, including the City Hall, the Main Theater, Casa Sola-Morales and Casa Gaietà Vila.

Central to the intervention is the proposal's elimination of road traffic on the passage, limited to what is strictly necessary and establishing a traffic strategy for nearby streets that permit pacifying this part of the city.
